CONSTRUCTION ALERT

OCparks

Capistrano County Beach

Sand Nourishment Project

Project Summary

OC Parks will place up to 9,000 cubic yards of sand at Capistrano Beach within the City of Dana Point. Public access to specific beach areas may be temporarily limited due to safety during construction.

WHAT

Work for this project includes:
Transport and placement of beach quality sand sourced and shipped from the Lapeyre Quarry native soil in San Juan Capistrano.

DETOURS AND SAFETY
Flaggers will direct both pedestrians and bicyclists to avoid the work area. Watch for additional traffic control measures including construction signage .

WHEN

October 12-30, 2026

Work Schedule:

Monday – Friday, 7 a.m. – 4 p.m.

Working hours and schedule will vary due to tides, inclement weather, ocean conditions and other factors.

BACKGROUND

Addition of sand serves to counter coastal erosion, protect coastal resources, and enhance recreation areas.

The California Coastal Commission (CCC) has approved placement of sand as an interim measure prior to construction of the Capistrano-Doheny Beach Nature-Based Shoreline Adaptation project.
